

LAZER

IMPORTANT NOTIFICATION – LAZER helmets

LAZER SPORT NV (“LAZER”) has identified that in some cases, certain BLADE, MAGMA, ELLE and JADE bicycle helmets sold since January 2015 do not pass roll-off tests under the CE standards. As a result, in rare circumstances, the strap anchorage may detach from the helmet during impact. It concerns all sizes of the CE helmets affected.

To date, we are not aware of any reports of incidents and we consider the safety risk to be very low. However, as some products do not meet CE standards, LAZER has decided voluntarily to undertake a recall of the helmets affected in countries where the roll-off test is a mandatory requirement. To find out whether the standard is applicable in your country, please visit our website www.lazersport.com for further details or contact your local LAZER dealer.

The LAZER helmets affected are **only** the following models:

Model name	CE Helmets	
	Identification Code	CE sizes
BLADE	LZB-08	XS, S, M, L, XL
BLADE (Asian Fit)	LZB-18	S, M, L
ELLE	LZB-08	S, M
MAGMA	LZB-08	XS, S, M, L, XL
MAGMA (Asian Fit)	LZB-18	S, M, L
JADE	LZB-08	S, M

No other LAZER helmets are affected.

The models affected were sold in a variety of colours.

A white sticker with model name, identification code and size can be found inside the helmet as shown below:

LAZER	
LZB-08	(BLADE)
S	52-56cm
260g	06/17

LAZER BLADE/ELLE

LAZER MAGMA/JADE

If you are in possession of an affected helmet please contact the retailer you bought it from as soon as possible to arrange replacement of the helmet, free of charge. The replacement helmet for the BLADE and ELLE, marketed under the name BLADE+, has a new strap anchorage designed to meet the required standards. They are CE certified and can be identified by codes ending with “081”. The replacement helmet for the MAGMA and JADE will be the LAZER ROLLER.

Consumers who are not certain whether their LAZER helmet is affected, should go to their dealer to have the helmets checked.

We apologize for any inconvenience. If you have any questions, please visit the LAZER website, www.lazersport.com, for contact details and further information.
